## Chapter 1: Budgeting Basics

One of the most important aspects of wedding planning is setting a budget. This will help you stay on track throughout the process and avoid overspending. Here are a few tips to get you started:

- **Set a realistic budget:** Don't be afraid to adjust your budget as needed. It's better to start with a realistic number and add to it later than to set an unrealistic budget and end up in debt.

- **Prioritize your spending:** Decide what's most important to you and allocate your funds accordingly. For example, if you're dreaming of a lavish reception, you may need to scale back on other aspects of your wedding.
- **Track your expenses:** Keep track of every expense, big and small. This will help you stay within your budget and identify areas where you can save money.

## Chapter 2: Guest List and Seating Arrangements

The guest list is one of the most important decisions you'll make. Here are a few tips to help you create a list that you're happy with:

- **Start with a rough estimate:** Think about how many guests you would like to invite and then add a little extra for unexpected additions.
- **Send out save-the-dates early:** This will give your guests plenty of time to plan and adjust their schedules.
- **Create a seating chart:** This will help you avoid chaos on the big day and ensure that everyone has a comfortable place to sit.

## Chapter 3: Wedding Timeline

A wedding timeline is essential for keeping your day on track. Here are a few tips to help you create a timeline that works for you:

- **Start with the ceremony time:** This will be the anchor for the rest of your timeline.
- **Factor in travel time:** Make sure to allow enough time for you and your guests to travel between the ceremony and reception venues.

- **Build in some buffer time:** Things don't always go according to plan, so it's important to build in some extra time in case of unexpected delays.

## Chapter 4: Vendor Management

Hiring the right vendors is essential for a successful wedding. Here are a few tips to help you find and manage your vendors:

- **Do your research:** Read online reviews and talk to other couples who have used the same vendors.
- **Get everything in writing:** Make sure to have a contract with each vendor that outlines the services they will provide and the cost.
- **Stay in communication:** Check in with your vendors regularly to ensure that they are on track and that you are both happy with the arrangements.

## Chapter 5: Wedding Day Essentials

On the day of your wedding, there are a few things you'll need to make sure you have on hand. Here's a list of wedding day essentials:

- **Marriage license:** This is the most important document you'll need on your wedding day.
- **Wedding rings:** Don't forget the rings!
- **Vows:** If you're writing your own vows, make sure to have them written down and memorized.
- **Emergency kit:** This should include items like a first-aid kit, sewing kit, and stain remover.

Planning a wedding can be a lot of work, but it's also an incredibly rewarding experience. By following the tips outlined in this guide, you can create a beautiful and memorable day that you and your guests will cherish for years to come.
